•Color:
•Leaf color:Green
•Growth Habit:climbing

Kalanchoe
Thrysiflora
very drought tolerant plant, but wrinkly, shriveled leaves are a sign that it's gone too long without a drink

Kalanchoe
Tomentosa
also known as pussy ears or panda plant, is a succulent plant

Peperomia
Obtusifolia var
highly variegated leaves with splashes
of cream and sage green

Peperomia
Orba Pixie Lime
semi-succulent, so it grows best in light,
well-draining soil and prefers full sun-
light and warm temperatures

Peperomia
Obtusifolia Green
is a bushy, upright plant with thick stems
and fleshy, glossy, cupped leaves

Peperomia
Clusiifolia var
is a new variation of Peperomia in the
Piperaceae family

Philodendron
Oxycardium Brazil
•blotched yellow and green, heart-shaped
leaves, each with a pointed tip
•stems are pink when young

Philodendron
Oxycardium Green
known for its air-purifying properties.
It efficiently removes common indoor
pollutants like formaldehyde, xylene,
and toluene

Philodendron
Moonshine

- beautiful upright growth with bright yellow leaves
- Its foliage tends to get more coarse with age

Philodendron
Xanadu Golden

- shiny golden leathery leaf has 15-20 distinct lobes
- leaves of this beautiful, exotic looking foliage plant

Portulacaria
Afra

- Small, fleshy leaves are triangular with rounded edges

Portulacaria
Afra Variegata

- Thick, fleshy leaves are tear-drop-shaped to oval with smooth leaf edges
- light green with cream-coloured leaf margins that varies in proportion among different leaves

Senecio
Cardicans Angel Wings

- silvery-white leaves that will light up a border or container

Senecio
Sea Pearls

- greenery floats down over the edge of the pot and looks very classy and stylish.
- The plant will purify the air, cleaning up the atmosphere around wherever it is situated.

Senecio

Crassissimus

- flat, waxy, fleshy silvery-green leaves with purple edges growing along upright stems
- Displays yellow, daisy-like flowers on thin stems

Senecio

Serpens Blue Chalksticks

- Powdery blue-green fleshy leaves provide year round interest, taking on purple tints in extreme heat and sun exposure
