# SAVANNA

## Flowers

The company goal is to supply high quality, hygiene and disease free cuttings and rooted young plants to customers all over the world. An experienced and well trained team of mainly local managers and employees will be happy to supply and serve you.

Unrooted cuttings, rooted cuttings and boxes

Savanna Flowers produces rooted and unrooted cuttings and young plants. These are the basic requirements for our clients and we thus strive to remain simple but able to satisfy your basic needs.

UNROOTED CUTTINGS

The unrooted cuttings are harvested in units of 100 pieces/harvesting bag and depending on the variety packed 2.000 - 10.000 cuttings per box. They are packed with ice packs and/or ethylene blocker sachets.

ROOTED CUTTINGS

Depending on the crop we offer both the 20mm cm and the 16mm Plug. The 20mm Plug is packed in a

204 hole tray/box while the 16mm Plug is packed in a 285 hole tray/box. Depending on the size of the young plants there are 2 - 6 trays per shipping box. Rooted Pelargoniums are packed in a small paper box with 200 young plants in a box and 6 small boxes in a shipping box (1200 per Box).

This showcases the unrooted cuttings that are to be shipped and how they are packaged in shipping boxes

This image showcases cuttings in a bag properly packaged

The two images showcase the various plugs for rooted plants and their sizes

**Peperomia  
Neon**

- bright, waxy, heart-shaped green leaves (to 4" long) that are variegated with yellow or white
- On large mature vines, however, the leaves become much larger (to 30" long) with deep lobes

**Ficus  
Green**

- glossy, dark green, leathery leaves are densely clothed on large, somewhat weeping branches
- New growth, produced all year long, is a light rose to chartreuse color, giving the tree a lovely two-toned effect

**Peperomia  
Mermaid tresses**

- Long, narrow, apple green leaves with cylindrical edges
- A must-have, unusual succulent
- Finely textured component for container recipes; contrasts well with rosette forms

**Peperomia  
Caperata**

- rosettes of long stemmed, wrinkled, deeply corrugated, heart-shaped, dark green leaves (to 1 1/2" long) on long red-tinged stalks
- Leaves are deeply veined with an attractive corrugated surface. Leaf color is close to black along the corrugations

**Peperomia  
Clusiifolia Var**

- slightly larger and the leaves more elongated
- dark green, oval-shaped leaves have a dark red margin

**Peperomia  
Obtusifolia Green**

- typically grows on thick erect stems to 12" tall
- Waxy, elliptic, thick dark green leaves
- Small greenish-white flowers on spikes

### Peperomia

#### Orba pixie Lime

- Succulent, waxy leaves and green-white flowers, borne on spikes

### Peperomia

#### Emerald Ripple Pepper (200001)

### Peperomia

#### Verticillata Red Log (200002)

### Philodendron

#### Xanadu Golden

- shiny golden leathery leaf has 15-20 distinct lobes
- leaves of this beautiful, exotic looking foliage plant can be as large as 16-18 inches long and 7-14 inches wide

### Philodendron

#### Moonshine

- beautiful upright growth with bright yellow leaves
- Its foliage tends to get more coarse with age and its leaves more prominently ribbed

### Philodendron

#### Oxycardium Brazil

- blotched yellow and green, heart-shaped leaves, each with a pointed tip
- stems are pink when young, eventually turning light green

### Philodendron

#### Tropic Sunrise

- Leaves are 7 long and begin with a light and dark green coloration

### Pilea

#### Peperomioides

- shiny, dark green, circular leaves up to 10 cm (4 in) in diameter on long petioles

### Portulacaria

#### Afra

- Small, fleshy leaves are triangular with rounded edges

### **Portularia**

#### **Afra Variegata**

- Thick, fleshy leaves are teardrop-shaped to oval with smooth leaf edges
- light green with cream-coloured leaf margins that varies in proportion among different leaves

### **Senecio**

#### **Cardicans Angel Wings**

- silvery-white leaves that will light up a border or container

### **Senecio**

#### **Serpens Blue Chalksticks**

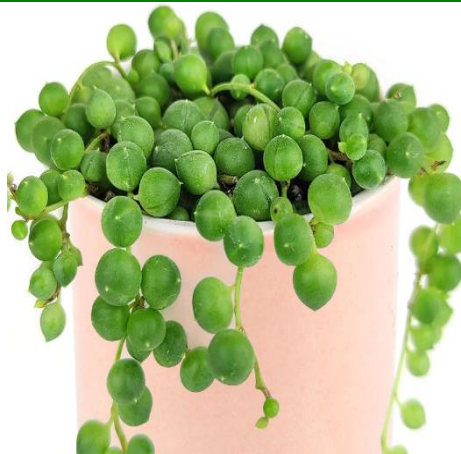

- Powdery blue-green fleshy leaves provide year round interest, taking on purple tints in extreme heat and sun exposure

### **Senecio**

#### **Crassisimus**

- flat, waxy, fleshy silvery-green leaves with purple edges growing along upright stems
- Displays yellow, daisy-like flowers on thin stems

### **Senecio**

#### **Sea Pearls**

- greenery floats down over the edge of the pot and looks very classy and stylish.
- The plant will purify the air, cleaning up the atmosphere around wherever it is situated.
- This, along with the lovely visual effects the plant has is a real bonus for any indoor setting.

### **Syngonium**

#### **Bronze**

- deep bronze toned arrowhead-shaped leaves, with red veins
- Even though the Bronze is hardy and easy to grow, they prefer a semi-shaded position with indirect sunlight

**Syngonium**  
**Novaka**

- As A Young Plant, Its Leaves Start Out Heart-Shaped
- Gradually Become Arrowhead Shaped As It Matures
- Its Green And White Leaves Make This A Decorative And Popular House Plant

**Syngonium**  
**Pink**

- Its patterned leaves and vibrant colors make the Pink Syngonium have a stunning look

**Syngonium**  
**White Butterfly**

- mature green leaves are arrowhead-shaped with white venation while the new shoots are heart-shaped with mostly white but green on the edges
